

Driven full-stack web developer who seeks to solve business problems through elegant design, functionality and fun. I thrive in fast-paced, high pressure environments and enjoy motivating the people around me!

EXPERIENCE

Web Application Developer

Caspio | Santa Clara, CA

01/2018 – present

- Design, test, and build web applications using PHP, HTML, JavaScript and SQL while effectively incorporating Caspio products
- Gathers and analyzes customer requirements, then implements custom web solutions based on their business needs and objectives
- Integrate third-party capabilities via APIs and libraries
- Work with the PMs to update project status, timelines, and financials throughout the development cycle to ensure successful deployment on-time and under budget
- Interface with clients to demo projects, gather feedback, and revise components as requested

Web Development Immersive

General Assembly | Washington, DC

08/2017 – 11/2017

- Full-stack web development program focused on best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development
- Developed a portfolio of both individually focused and collaboratively focused projects

Logistics Manager, Iraqi Navy CLS Contract

Swiftships | Vienna, VA

03/2016 – 03/2017

- Led strategic planning, data collection, and program activity assessments for all supply chain related activities on a FOTS program for the US DOD
- Managed two remote warehouse teams in Louisiana and Iraq to ensure handling, tracking, and reporting of material was compliant with ITAR requirements
- Successfully facilitated the export of \$7M+ in defense material from US to Iraq

Program Analyst, Iraqi Navy CLS Contract

Swiftships | Vienna, VA

08/2014 – 03/2016

- Prepared and delivered recurring program status reports, KPI dashboards, and process diagrams to the US NAVSEA
- Worked with the PM to prepare and review program plans, program schedules, work breakdown structures, and requirement tracking documents
- Conducted business process mapping and analysis to identify bottlenecks

Business Analyst

Swiftships | Vienna, VA

02/2013 – 08/2014

- Researched and qualified potential customers based on the company's business model and guidelines
- Coordinated internal teams to develop and implement new marketing and sales material
- Served as a direct liaison and arranged embassy meetings between senior management and foreign defense attaches
