University of Maryland, College Park, MD
Business & Economics

Web Development Experience

General Assembly, Washington, DC, August - November 2017

Web Development Immersive Student

Full-stack web development program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development. Developed a portfolio of both individually focused and collaboratively focused projects. Projects include:

- **Spoonfull:** <https://spoonfull.herokuapp.com/>

Allows users to search for a recipe or ingredient, browse through the results, then save their favorites into a digital 'Cookbook'. Created using PostgreSQL, Ruby on Rails, jQuery and the Food2Fork Recipes API

- **Mario Hangman:** <https://git.generalassemb.ly/pages/bilgooday/mario-hangman/>

It's-a-me! Grab a friend and take a trip down memory lane in this special edition Hangman game. As my first project I wanted to recreate the look and feel of this childhood classic while incorporating modern design aesthetics.

Professional Experience

Swiftships, Vienna, VA, March 2016 – March 2017

Logistics Manager, Iraqi Navy CLS Contract

- ☐ Performed strategic planning, data collection, program activity assessments and analytical information support for all supply chain related activities.
- ☐ Provided frequent program management and technical support to the Naval Sea Systems Command (NAVSEA) on inbound and outbound shipments.
- ☐ Managed two remote warehouse teams in Louisiana and Iraq to ensure tracking, reporting and handling of material was done per NAVSEA and US DOD requirements.
- ☐ Facilitated and was responsible for the export of over \$12M in material from the US to Iraq.
- ☐ Maintained metrics and analyzed data to assess performance and implement logistical process improvements.

Swiftships, Vienna, VA, August 2014 – March 2016

Program Analyst, Iraqi Navy CLS Contract

- ☐ Conducted business process analysis, mapping and modeling. Assisted with business process redesign and process improvement recommendations.
- ☐ Prepared and delivered recurring program status reports, dashboards, management talking points and briefing books.
- ☐ Performed internal process audits to ensure compliance per ISO 9001:2008 quality management standards.

Swiftships, Vienna, VA, March 2013 – August 2014

Business Analyst

- ☐ Supported in market research and analysis to create marketing initiatives to promote company products.
- ☐ Coordinated internal teams to develop and implement new marketing and sales strategies.

Activities and Interests

- ☐ **Co-founder, Spoonfull:** Food and travel blog - check us out on [IG](https://www.instagram.com/spoonfullco) or at spoonfull.co
- ☐ **Tech Meetups:** DC Ruby Users Group (RUG), Full-Stack DC, DC Learn.js, Code for DC
